

FOR IMMEDIATE RELEASE - Chris G. from grassroots Biden-Harris website everydayamericanjoe.com and Jacquelyn Brittany, viral sensation who nominated Joe Biden for President of the United States at the Democratic National Convention, have formed a small single-candidate federal PAC for Biden-Harris in the 2020 Election.

As a single-candidate action committee, it will dissolve and cease to exist after the 2020 election results are made official. The We Got A Voice 2 PAC officially launches today, and will run digital ads in swing states to working class and disadvantaged Americans up until the election is finalized.

(Oakland, CA - September 15, 2020) Our Mission is to give a voice to The People who, like Jacquelyn and everyday, working class Americans across the country, are rarely given a platform or voice in politics at a national level. Our plans focus on the people hardest-hit by Trump's failures, his economic policies, the racial unrest, injustice, and civil discourse consuming the country - and Americans who need help the most. We fight for our tax cuts, our wages, our families - not the rich. We believe that the Biden-Harris Agenda will save and change the lives of millions upon millions of Americans, and build the strongest from-the-bottom-up Economy in United States history. To this extent, we will be running digital ads and meeting with Americans both in-person and virtually, to help elect the Forty Sixth President.

"We Got A Voice has a single purpose. We're everyday Joes, Janes & Jacquelyns who believe the working class, the marginalized and those hurt the most by Trump's top-down trickle-down economics have either already plunged into poverty and despair, or are on the verge. We believe that Joe Biden has the potential to be one of the greatest presidents our nation has seen; he's uniquely qualified to unify and lead all government officials, no matter their political affiliation. Beyond that, his humanity, humility and human nature is something his opponents see as a shortcoming. We believe "human" is one of his greatest assets. As a father that raised my 3 children as a single Dad for many years, and as the father of a son with a severe stutter and speech impediment - I can tell you Joe Biden's humanity is exactly what resonates with me. I don't want a slick talking, robotic politician. I don't want a narcissist, who's so self-absorbed they treat half of all Americans as enemies. Our team wants a real president; an American president. And we will fight to make our voices and those like us heard." added Chris.

Jacquelyn, Chris, and their team of volunteers will be in the San Francisco Bay Area the first week of October at a location TBA, to host a meet-and-greet with their team and special guests, and a livestream event to raise money for their efforts.
